Product Description

Product Description:

Supporting Board for Scaffolding – Scaffolding Plank

Our Scaffolding Plank is made of steel, with a steel color which is highly rust-resistant and anti-corrosion.

It offers customized width and weight according to the customers' requirements. The supporting board for scaffolding is durable and reliable, which can provide a safe and solid support for the scaffolding.

The plank features light weight, which makes it easy to carry and handle. In addition, it is of great stability and it can bear impacts, which are ideal for scaffolding.

We also provide the wide range of sizes and colors that meet your different needs. All our Scaffolding Planks are designed to ensure a reliable and secure scaffolding.

Features:

Product Name: Scaffolding Plank
