

Customized Weight Pre-Galvanized/Hot Dip Galvanized Metal Plank for Building Projects

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT02

Product Specification

- Color: Steel
- Edge: Smooth
- Usage: Scaffolding
- Packaging: Container
- Material: Steel
- Surface: Pre-galvanized/hot Dip Galvanized
- Weight: Customized
- Structure: Solid
- Highlight: **Steel Scaffolding Plank,
Customized Scaffolding Plank**

Product Description

Product Description:

Our Scaffolding Plank is made of highly durable steel that ensures maximum stability and safety. The smooth edges of the planks protect workers from any harm due to sharp edges while the pre-galvanized or hot dip galvanized surface prevents corrosion. The planks are designed to provide a secure and reliable supporting board for scaffolding, making them the perfect choice for any construction or maintenance-related job. With their steel-based construction and metal planking, our Scaffolding Planks are the ideal solution for any construction or maintenance-related projects.

Features:

Product Name: Scaffolding Plank

Color: Steel

Design: Standard

Usage: Scaffolding

Thickness: Customized

Weight: Customized

Supporting Board for Scaffolding

Technical Parameters:

Parameter	Details
Packaging	Container
Usage	Scaffolding
Surface	Pre-galvanized/hot Dip Galvanized
Length	Customized
Color	Steel
Structure	Solid
Width	Customized
Edge	Smooth
Weight	Customized
Thickness	Customized

Applications:

Bythai BT02 Scaffold Supporting Plank

The Bythai BT02 Scaffold Supporting Plank is a standard metal plank made with steel. It is designed to be a strong and reliable scaffolding system. It features a smooth edge and a solid structure that can be customized to your specific needs. It is suitable for a wide range of applications such as construction sites, industrial sites, and warehouses. The metal plank is versatile, lightweight, and durable, making it a great choice for any scaffolding project.

The metal plank is made with high-quality steel, making it a reliable and strong scaffolding system. It is designed to be lightweight, yet strong enough to support the weight of workers and other scaffolding components. The edges are smooth, ensuring that there are no sharp edges that could potentially cause injuries. The steel construction is also designed to be rust-resistant, making it a great choice for outdoor use.

The Bythai BT02 Scaffold Supporting Plank is an excellent choice for any scaffolding project. It is lightweight, strong, and durable, making it suitable for a wide range of applications. Its smooth edge and solid construction make it a reliable and safe choice. So, if you are looking for a strong and reliable metal plank for your scaffolding project, the Bythai BT02 Scaffold Supporting Plank is the perfect choice for you.

Customization:

Scaffolding Plank - Bythai BT02
