

Max Height $\leq 30\text{m}$ Ringlock Ledger with Vertical Load Capacity $\geq 45\text{KN}$

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT03

Product Specification

- Size: 48.3mm
- Horizontal Load Capacity: $\geq 15\text{KN}$
- Warranty: 2 Years
- Vertical Load Capacity: $\geq 45\text{KN}$
- Standard: EN12810 & EN12811
- Joints: Double-locking
- Max Height: $\leq 30\text{m}$
- Vertical Adjustment: $\leq \pm 3^\circ$

Product Description

Product Description:

Ringlock System Scaffolding is a versatile, cost-effective and safe scaffolding system used for building, repair, and maintenance, which is composed of a variety of components including verticals, horizontals, diagonals, braces, base plates, ladders, etc., made of Q235 steel with diameter 48.3mm. It is designed to meet the highest safety requirements and can support a maximum height of 30m and horizontal load capacity of 15KN. The system is easy to install and dismantle, and its superior stability, reliability and flexibility make it one of the most popular scaffolding systems in the market. With Ringlock formwork and Ringlock accessories, you can easily build a secure and strong scaffolding structure for any project.

Technical Parameters:

Parameter	Value
Product Name	Ringlock System Scaffolding
Material	Q235 Steel
Vertical Adjustment	$\leq \pm 3^\circ$
Size	48.3mm
Warranty	2 Years
Standard	EN12810 & EN12811
Weight	$\leq 30\text{kg/m}^2$
Horizontal Adjustment	$\leq \pm 3^\circ$
Surface Treatment	Hot-dip Galvanized
Max Height	$\leq 30\text{m}$
Horizontal Load Capacity	$\geq 15\text{KN}$

Applications:

Ringlock Scaffolding System is a versatile and cost-effective solution for those in need of scaffolding. Bythai's BT03 Ringlock System is designed with a $\pm 3^\circ$ horizontal and vertical adjustment, a size of 48.3mm, and a max height of up to 30m, enabling stability and safety during construction. The double-locking joints provide additional stability, ensuring maximum safety and reliability. Made in China, the BT03 Ringlock System is an excellent choice for those looking for a durable and efficient scaffolding system.

Customization:

Bythai BT03 Ringlock System Scaffolding

Brand Name: Bythai

Model Number: BT03

Place of Origin: China

Weight: $\leq 30\text{kg/m}^2$

Horizontal Load Capacity: $\geq 15\text{KN}$

Vertical Load Capacity: $\geq 45\text{KN}$

Size: 48.3mm

Joints: Double-locking

Bythai BT03 Ringlock System Scaffolding is the perfect choice for your construction needs. It is equipped with ringlock ledger, ringlock standard, and ringlock vertical, which provides you with strong and reliable support. The double-locking joints ensure the safety and security of the system. With a weight of $\leq 30\text{kg/m}^2$ and a vertical load capacity of $\geq 45\text{KN}$, this scaffolding is a reliable and sturdy choice.

Packing and Shipping:

Packaging and Shipping of Ringlock System Scaffolding:

The Ringlock System Scaffolding will be securely packed with heavy-duty plastic wrap, paperboard/corrugated boxes or wood cases to protect the product from any damage during shipping.

Shipment of the product is usually done through air or sea. Depending on the customer's needs, we will work with different shipping companies to make sure the product is delivered in a safe and timely manner.

FAQ:

Q1: What is the brand name of the Ringlock System Scaffolding?

A1: The brand name of the Ringlock System Scaffolding is Bythai.

Q2: What is the model number of the Ringlock System Scaffolding?

A2: The model number of the Ringlock System Scaffolding is BT03.

Q3: Where is the Ringlock System Scaffolding manufactured?

A3: The Ringlock System Scaffolding is manufactured in China.

Q4: What is the purpose of the Ringlock System Scaffolding?

A4: The Ringlock System Scaffolding is used for construction projects, providing a secure and stable working platform.

Q5: What are the advantages of the Ringlock System Scaffolding?

A5: The Ringlock System Scaffolding is a fast and easy to install system with excellent load-bearing capacity. It is also highly durable and corrosion-resistant.
