

Customized Frame System Scaffolding with High Load Capacity Construction Site

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM205
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Color: Steel/Spray Plastic
- Shipping Origin: China
- Material: Q235
- Arrival Time: 10-15
- Load Capacity: High
- Size: Customized

Product Description

Product Description:

Frame System Scaffolding - Your Ultimate Solution for Safe and Efficient Construction

If you are looking for a versatile and durable scaffolding system that can be customized to your specific project needs, then look no further than our Frame System Scaffolding. With its outstanding features and high load capacity, it is the perfect choice for all your construction needs.

Size Customization for Perfect Fit

One of the best things about our Frame System Scaffolding is that it can be customized to fit your specific project requirements. Whether you need a small or large scaffolding, our team will work with you to design and build a perfect fit for your construction site.

Steel/Spray Plastic for Durability and Versatility

Our scaffolding system is made of high-quality steel or coated with spray plastic for added durability and versatility. The steel frame provides strength and stability, while the plastic coating protects against rust and corrosion, making it suitable for both indoor and outdoor use.

High Load Capacity for Heavy-Duty Applications

With its strong and sturdy construction, our Frame System Scaffolding has a high load capacity, making it suitable for heavy-duty applications. It can support multiple workers and equipment, ensuring safety and efficiency on the job site.

Easy Assembly for Quick and Efficient Setup

Our scaffolding system is designed for easy assembly, making it quick and efficient to set up. With its simple and intuitive design, it can be assembled by a small team in a short amount of time, saving you time and labor costs.

Safe and Reliable Portal Frame Shoring

The ladder frame system of our scaffolding provides stable and secure support, ensuring the safety of workers while they are working at heights. With its reliable portal frame shoring, you can have peace of mind knowing that your project is being constructed with the highest safety standards.

Effortless Shipping from China

With our efficient shipping process, your Frame System Scaffolding will arrive at your location in just 10-15 days. Our scaffolding is manufactured in China, and we have a well-established shipping network to ensure timely delivery to your project site.

Don't compromise on safety and efficiency for your construction projects. Choose our Frame System Scaffolding for a customized, durable, and versatile solution. Contact us today for more information or to place your order.

Technical Parameters:

Item	Value
Product Name	Frame System Scaffolding
Color	Steel/Spray Plastic
Arrival Time	10-15 days
Size	Customized
Material	Q235
Shipping Origin	China
Load Capacity	High
Product Description	Portal Frame Shoring and Portal Frame Scaffold Accessories, made of high quality Q235 material, with a customized size option. Available in steel or spray plastic color. Can be shipped from China with an arrival time of 10-15 days. Has a high load capacity and is ideal for ladder frame scaffolding.

Applications:

Bythai BM205 Frame System Scaffolding

Brand Name: Bythai

Model Number: BM205

Place of Origin: China

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15

Payment Terms: TT/TC
Shipping origin: China
Color: Steel/Spray Plastic
Arrival time: 10-15
Load Capacity: High
Size: Customized

Frame System Structuring: The Bythai BM205 is a frame system scaffolding that provides a safe and efficient solution for construction projects. It is designed to create a stable and secure platform for workers to perform their tasks at different heights.

Walk Through Scaffold System: The BM205 is a walk through scaffold system, which means it has a wide walkway between frames, allowing workers to easily move around and carry materials without obstruction.

High Load Capacity: The BM205 has a high load capacity, making it suitable for heavy-duty construction work. It can support the weight of multiple workers and heavy equipment, ensuring a safe working environment.

Easy to Install: This frame system scaffolding is designed for easy installation, saving time and effort for construction teams. With its lightweight and modular design, it can be easily assembled and disassembled, making it convenient for transportation and storage.

Corrosion Resistant: Made with high-quality steel, the BM205 is corrosion resistant, making it durable and long-lasting. This ensures the safety of workers and the stability of the structure, even in harsh weather conditions.

Safe to Use: The BM205 is designed with safety in mind. It has features such as anti-slip platforms, guardrails, and locking mechanisms, providing a secure working environment for construction workers.

Application: The Bythai BM205 is suitable for a wide range of construction projects, including building, renovation, maintenance, and repair work. It can be used for both indoor and outdoor projects, providing a versatile solution for different construction needs.

Scene: Imagine a construction site where workers are busy building a multi-story building. The Bythai BM205 frame system scaffolding is set up around the building, providing a stable and safe working platform for workers to perform their tasks at different heights. The walk-through design allows workers to easily move around and carry materials, increasing efficiency and productivity. Its high load capacity ensures the safety of workers and the stability of the structure. The corrosion-resistant material and safety features provide a secure working environment, even in harsh weather conditions. With its easy installation and customization options, the BM205 is the perfect solution for any construction project.

Customization:

At Bythai, we understand that every construction project is unique and requires specific scaffolding solutions. That's why we offer customized services for our BM205 frame system scaffolding. Our team of experts will work closely with you to understand your project requirements and provide tailored solutions to meet your needs. Our customized service includes:

Frame System Structuring: Our team will design the scaffolding structure to fit your construction site and project requirements.

Portal Frame Scaffold Accessories: We provide a range of accessories such as connectors, pins, and braces to ensure the stability and safety of the scaffolding structure.

Color Options: You can choose between steel or spray plastic coating for your scaffolding, depending on your project needs.

Size Customization: We offer customized sizes to fit your specific construction site and project requirements.

Delivery Time: With our efficient production and delivery process, we guarantee a delivery time of 10-15 days.

Choose Bythai BM205 frame system scaffolding for a high-quality, customized, and efficient scaffolding solution for your construction project. Contact us now for more information and a personalized quote.

Packing and Shipping:

Frame System Scaffolding

Packaging and Shipping

Our Frame System Scaffolding is carefully packaged and shipped to ensure safe arrival at your desired location.

The scaffolding components are securely packed in strong boxes to prevent any damage during transportation.

Each box is clearly labeled with the contents and quantity for easy identification and inventory management.

For large orders, we use pallets to stack and wrap the boxes for added protection and convenience.

Our shipping team works closely with reliable carriers to ensure timely and efficient delivery of your order.

We also offer international shipping options for our customers outside of the United States.

Rest assured, your Frame System Scaffolding will be delivered to you in excellent condition and on time.
