Features:

Product Name: Scaffolding Plank
Length: Customized
Packaging: Container
Usage: Scaffolding
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
Place of shipment: China
Features:
Steel frame for decking plank
Scaffolding steel plank
BS1139 steel plank

Technical Parameters:

Product Name	Steel Plank with Hook
Material	Steel
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage	Scaffolding
Place of Shipment	China
Length	Customized
Packaging	Container
Description	Steel staging plank and perforated steel plank for sale

Applications:

With Bythai BT205 Scaffolding Plank, you can be assured of a safe and sturdy platform for your construction workers. The steel plank with hooks can be used to create scaffolding structures that are both strong and reliable. The scaffolding steel walking planks hook provide a secure foothold for workers, reducing the risk of accidents and injuries.

The steel plank with hooks is a versatile product that can be used in various scenarios. For instance, it can be used as a steel catwalk scaffold for workers to access high areas. It can also be used as a platform for workers to perform tasks such as painting or cleaning. The length of the plank can be customized to suit your needs, making it a flexible and adaptable product.

Bythai BT205 Scaffolding Plank is packaged in bundles and shipped in containers, ensuring that the product arrives at your destination in good condition. The delivery time is 10-15 days, and the payment terms are container and shipping. The place of shipment is China.

The surface treatment of the Bythai BT205 Scaffolding Plank can be pre-galvanized, hot dip galvanized, or spray plastic. Pre-galvanized surface treatment protects against rust and corrosion, making it ideal for outdoor use. Hot dip galvanizing provides even greater protection against rust and corrosion, making it ideal for use in harsh environments. Spray plastic surface treatment provides a durable and attractive finish, making it ideal for indoor use.
