Galvanised Scaffold Tube EN39 with 48.3mm Diameter and 420N/mm2 Tensile Strength

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS ISO
- Model Number: BT201
- Minimum Order Quantity: 1000
- Price: $10-$85
- Packaging Details: In bundles
- Delivery Time: 10-15 days
- Payment Terms: TT/TC
- Supply Ability: 1000tons per month

Product Specification

- Standard: EN39
- Name: Galvanised Scaffold Tube
- Surface Treatment: Galvanised
- Diameter: 48.3mm
- Weight: 6.4kg/m
- Thickness: 3.2mm
- Tensile Strength: 420N/mm2
- Application: Scaffolding
- Highlight: **48.3mm Galvanised Scaffold Tube**, **420N/mm2 Galvanised Scaffold Tube**, **Galvanised Scaffold Tube EN39**

Product Description

Features:

Product Name: Galvanised Scaffold Tube

Thickness: 3.2mm

Diameter: 48.3mm

Yield Strength: 245N/mm2

Material: Galvanised Steel

Galvanised Scaffold Tube is a sturdy and durable option for all your scaffolding needs. With a thickness of 3.2mm and a diameter of 48.3mm, it can support heavy loads with ease. The yield strength of 245N/mm2 ensures that it will hold up under pressure. Made from galvanised steel, it is resistant to corrosion and rust, making it a long-lasting investment. Get the tube scaffolding you need at an affordable scaffolding tube price with Galvanised Scaffold Tube.

Technical Parameters:

Standard:	EN39
Name:	Galvanised Scaffold Tube
Yield Strength:	245N/mm2
Tensile Strength:	420N/mm2
Surface Treatment:	Galvanised
Weight:	6.4kg/m
Material:	Galvanised Steel
Diameter:	48.3mm
Application:	Scaffolding
Thickness:	3.2mm

Applications:

With its excellent corrosion resistance, this scaffolding steel tube is perfect for outdoor applications where it is exposed to different weather conditions. It is also a great product for indoor use, where high humidity may be a concern.

The Bythai Scaffolding BT201 model galvanized scaffold tube is certified by SGS ISO and meets the industry standard BS1139 scaffolding tube specification. It is suitable for use in construction and building projects, as well as industrial and commercial applications.

The packaging of the galvanized scaffold tube is in bundles, making it easy to handle and transport. The minimum order quantity is 1000, and the price range is between $10 to $85, depending on the quantity ordered.

With a supply ability of 1000 tons per month, this product is always available and can be delivered within 10-15 days. Payment terms are TT/TC, making it easy to make payments.

Some of the occasions and scenarios where the Bythai Scaffolding BT201 model galvanized scaffold tube can be used include:

Construction and building projects

Industrial and commercial applications

Outdoor scaffolding applications

Indoor scaffolding applications with high humidity

Access solutions for maintenance, repair, and cleaning of buildings

Overall, the Bythai Scaffolding BT201 model galvanized scaffold tube is a reliable and durable product that meets the industry standard BS1139 scaffolding tube specification. It is suitable for use in various applications and scenarios and is always available for purchase with a fast delivery time and easy payment terms.
