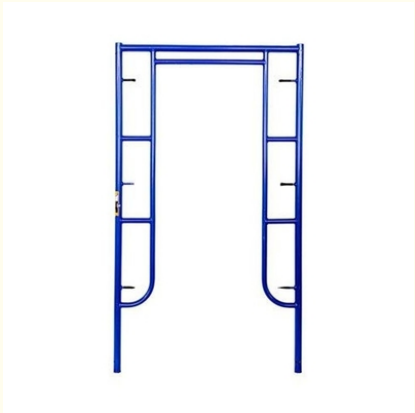
Access Steel Structure Building Walk Through Frame for Construction

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT04



Product Specification

- Stability: High
- Surface Treatment: Powder Coating
- Safety: High
- Durability: High
- Weight: Lightweight
- Load Capacity: High
- Material: Steel
- Size: Customized
- Highlight: **Building Walk Through Frame**, **Steel Structure Building Walk Through Frame**, **Access Steel Structure Walk Through Frame**

Product Description

Product Description:

Frame System Scaffolding is a re-usable, lightweight and highly safe scaffold system that is ideal for construction, industrial, and domestic use. The frame system features powder coating for a superior finish that provides greater protection against corrosion and damage for years of reliable service. Its cost-effective design minimizes material and labor costs, making it an excellent choice for any project. This h scaffold system is designed for easy mobility and is perfect for any job that requires the highest safety standards. Whether you're a professional or a do-it-yourselfer looking for a scaffold mobile frame system, the Frame System Scaffolding is the perfect solution for you. With its light weight and superior protection, this frame system scaffolding is sure to provide lasting value and reliability.

Features:

Product Name: Frame System Scaffolding
Surface Treatment: Powder Coating
Reusability: Yes
Safety: High
Flexibility: High
Color: Steel, Painted Color
Ladder Frame: Yes, for Frame System Structuring

Technical Parameters:

Parameter	Description
Flexibility	High
Cost-effectiveness	Yes
Safety	High
Surface Treatment	Powder Coating
Stability	High
Size	Customized
Color	Steel, Painted Color
Reusability	Yes
Material	Steel
Durability	High
Application	Scaffolding System for Construction, Scaffolding Frame System, H Scaffold System

Applications:

Bythai BT04 Frame System Scaffolding

Bythai BT04 Frame System Scaffolding is a perfect combination of h frame and ladder frame structures that offer an efficient and cost-effective solution for construction projects. It features a high load bearing capacity, high durability, excellent safety, and reusability. In addition, it is highly cost-effective, making it the perfect choice for applications such as scaffolding, formworks, and temporary structures. These features make Bythai BT04 Frame System Scaffolding the ideal choice for any construction project, as it ensures that the job is done efficiently, safely, and with minimal cost. The high load capacity, durability, and safety of the frame system make it ideal for any kind of scaffolding, formwork, or temporary structure, while the reusability ensures that the product can be used for multiple projects.
Bythai BT04 Frame System Scaffolding is the ideal choice for any construction project due to its high load capacity, durability, safety, reusability, and cost-effectiveness. With this product, you can be sure that your construction project will be completed efficiently, safely, and cost-effectively.

Customization:

Bythai BT04 Scaffold Mobile Frame System

This scaffold mobile frame system is made from high-quality materials, offering you superior durability and stability. It is lightweight, making it easy to move and transport. It is also cost-effective and can be customized to fit your needs. The Bythai BT04 Scaffold System is an excellent walk-through scaffold system that provides maximum safety and efficiency.

Support and Services:

We provide technical support and services for Frame System Scaffolding. Our technical support team has a range of experts who are

available to answer any questions you may have about the product. We also provide ongoing maintenance and monitoring services to ensure the system is running optimally. Our team is trained in the latest technologies and can provide custom solutions to any issues you may have. We strive to provide the best customer service and support to our customers so that they can have the best experience with our product.
