

Economical Aluminum Scaffolding Pipes for Temporary Access Solutions

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS
- Model Number: BT01
- Price: \$5-\$18
- Packaging Details: In bundles
- Delivery Time: 7-15 days
- Payment Terms: TT/LC
- Supply Ability: 1000tons per month

Product Specification

- Yield Strength: 245N/mm2
- Name: Galvanised Scaffold Tube
- Material: Galvanised Steel
- Tensile Strength: 420N/mm2
- Diameter: 48.3mm
- Application: Scaffolding
- Standard: EN39
- Thickness: 3.2mm
- Load Capacity: Heavy Duty
- Surface: Galvanised
- Easy To Assemble: Yes
- Adjustable Length: 3m, 5.8m, 6.0m Or As Your Request
- Bending Radius: $\geq 5D$

Product Description

Product Description:

Cost-Effective Reach: Economical Aluminum Scaffolding Pipes for Temporary Access

Maximize value and reach for your temporary access needs with our economical aluminum scaffolding pipes! These lightweight yet robust pipes offer a budget-friendly solution for construction projects, maintenance tasks, and event setups, ensuring safe and secure access at a fraction of the cost.

Balancing Affordability with Functionality:

Lightweight Construction: Made from high-strength aluminum alloy, these pipes are significantly lighter than steel alternatives. This translates to easier transportation, handling, and setup on-site, reducing labor costs and worker strain.

Exceptional Value: The economical price point of our aluminum pipes makes them a cost-effective choice for temporary access applications, maximizing your return on investment.

Safety and Stability You Can Trust:

Durable Construction: Despite their lightweight nature, our aluminum pipes are engineered to withstand significant loads, ensuring a stable platform for workers and materials at elevated heights.

Corrosion-Resistant: Aluminum naturally resists rust and corrosion, eliminating the need for additional coatings and minimizing maintenance requirements. This ensures long-lasting performance in various weather conditions.

Compliant with Safety Standards: Our aluminum scaffolding pipes adhere to safety regulations for temporary access applications, prioritizing worker well-being and project compliance.

Additional Benefits:

Versatile Applications: Our pipes integrate seamlessly with compatible scaffolding components like couplers, clamps, and transoms, allowing you to create various configurations for diverse access needs.

Quick and Easy Assembly: The user-friendly design facilitates quick and efficient setup and dismantling of your temporary access solution, minimizing downtime and optimizing project timelines.

Reduced Storage Space: The lightweight design and modular nature of these pipes allow for compact storage compared to steel scaffolding systems, saving valuable space on your worksite.

Ideal Applications for Economical Aluminum Scaffolding Pipes:

Construction projects requiring temporary access platforms.

Maintenance and repair work on buildings and infrastructure.

Event setups for staging, lighting, and sound equipment.

Temporary access for cleaning, painting, and window washing.

And many more cost-conscious temporary access applications!

Get the Reach You Need, Without Breaking the Bank:

Our economical aluminum scaffolding pipes provide the perfect blend of affordability, safety, and ease of use for your temporary access needs. Invest in a cost-effective solution that keeps your projects on track and your budget in check.

Contact us today to explore our range of economical aluminum scaffolding pipes and find the perfect fit for your next project!

Technical Parameters:

Parameter	Value
Name	Galvanised Scaffold Tube
Diameter	48.3mm
Thickness	3.2mm
Weight	6.4kg/m
Material	Galvanised Steel
Application	Scaffolding
Standard	EN39
Surface Treatment	Galvanised
Yield Strength	245N/mm2
Tensile Strength	420N/mm2

Galvanised Scaffold Tube is a type of building scaffolding pipes used in tube and coupler scaffolding systems. Made of galvanised steel, it has a diameter of 48.3mm and a thickness of 3.2mm. The tube weighs 6.4kg/m and has a yield strength of 245N/mm2 and a tensile strength of 420N/mm2. It is standardised under EN39 and has a galvanised surface treatment for added durability and corrosion resistance.

Applications:

Galvanised Scaffold Tube: The Ultimate Building Support Solution

Brand Name: Bythai Scaffolding

Model Number: BT01

Place of Origin: China

Certification: SGS

Price: \$5-\$18

Packaging Details: In bundles

Delivery Time: 7-15 days

Payment Terms: TT/LC
Supply Ability: 1000tons per month
Material: Galvanised Steel
Yield Strength: 245N/mm2
Tensile Strength: 420N/mm2
Surface Treatment: Galvanised

Customization:

Galvanised Scaffold Tube Customization Service

Brand Name: Bythai Scaffolding
Model Number: BT01
Place of Origin: China
Certification: SGS
Price: \$5-\$18
Packaging Details: In bundles
Delivery Time: 7-15 days
Payment Terms: TT/LC
Supply Ability: 1000tons per month
Surface Treatment: Galvanised
Weight: 6.4kg/m
Material: Galvanised Steel
Tensile Strength: 420N/mm2
Standard: EN39
Key Features:

Scaffolding steel tube with galvanised surface treatment for durability and rust resistance

Model number BT01 for easy identification and compatibility with Bythai Scaffolding systems

Certified by SGS for quality assurance

Competitive price range of \$5-\$18 per tube

Secure packaging in bundles for safe transportation and storage

Fast delivery time of 7-15 days

Flexible payment options of TT or LC

High supply ability of 1000tons per month for bulk orders

Lightweight design with a weight of 6.4kg/m for easy handling and installation

Made from galvanised steel for strength and durability

Tensile strength of 420N/mm2 for reliable support and stability

Conforms to standard EN39 for quality and safety

Customization Options:

Custom lengths and sizes available according to customer requirements

Option to add scaffold tube caps for added protection and safety

Branding and logo customization available for bulk orders

Trust Bythai Scaffolding for all your scaffolding steel tube needs. Our galvanised scaffold tubes provide the perfect combination of strength, durability, and affordability for your construction projects. Contact us now to learn more and place your order.

Support and Services:

Technical Support & Service

At Galvanised Scaffold Tube, we pride ourselves on providing top-quality products and exceptional customer service. Our technical support and service team is dedicated to ensuring that our customers have all the resources they need to successfully use our scaffold tubes.

Technical Support

Our technical support team is available to assist with any questions or concerns you may have regarding our Galvanised Scaffold Tube products. We can guide proper installation, usage, and maintenance of our scaffold tubes. Our team is also knowledgeable about safety regulations and can offer advice on how to comply with them.

If you encounter any issues while using our products, our technical support team is here to help. We can troubleshoot and provide solutions to any problems you may encounter. We are committed to ensuring that our customers have a smooth and successful experience with our scaffold tubes.

Service

In addition to our technical support, we also offer exceptional customer service to ensure a positive experience for our customers. Our service team is available to answer any questions and assist with any issues you may have. We are committed to responding promptly and providing effective solutions to any concerns you may have.

We also offer a warranty on all of our Galvanised Scaffold Tube products, providing our customers with peace of mind and ensuring the quality of our products. If you encounter any issues with our products, our service team will work with you to resolve them quickly and efficiently.

At Galvanised Scaffold Tube, we value our customers and strive to provide the best technical support and service in the industry. We are dedicated to ensuring that our customers have a positive experience with our products and are always available to assist with any questions or concerns. Thank you for choosing Galvanised Scaffold Tube.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Bythai Scaffolding.

Q: What is the model number of this product?

A: The model number of this product is BT01.

Q: Where is this product manufactured?

A: This product is manufactured in China.

Q: Does this product have any certification?

A: Yes, this product is certified by SGS.

Q: What is the price range for this product?

A: The price for this product ranges from \$5 to \$18.

Q: How is this product packaged?

A: This product is packaged in bundles.

7. Q: How long does it take for this product to be delivered?

A: The delivery time for this product is 7-15 days.

8. Q: What are the payment terms for this product?

A: The payment terms for this product are TT (Telegraphic Transfer) or LC (Letter of Credit).

9. Q: What is the supply ability of this product?

A: The supply ability of this product is 1000 tons per month.
